1	Formation and anatomy of lymphatic vessels	Lymphangiogenesis (embryonic)
		Lymphangiogenesis (adult)
		Lymphangiogenic factors
		Lymphatic vessel malformation
		Hereditary disease
		Anatomy
		Others
2	Immunology	B cells
		T cells
		Innate lymphocytes
		Dendritic cells, macrophages, granulocytes
		Allergy
		Cytokines and chemokines
		Tolerance and Immune suppression
		Infectious immunity
		Innate immunity
		Mucosal Immunity
		Autoimmune diseases
		Others
3	Tumor	Tumor microenvironment
		Lymphangiogenesis (tumor)
		Tumor lymphangiogenic factors
		Tumor immunity
		Lymph node metastasis
		Sentinel lymph node
		Surgical treatment
		Anti-lymphangiogenic therapy
		Others
4	Lymphatic vessel physiology and lymphedema	Lymphatic flow
		Lymphatic circulation
		Lymphangiography
		Lymphedema
		Lymphedema diagnosis
		Lymphedema surgical treatment
		Lymphatic vein anastomosis
		Self care
		Others
5	Others	Others
